Copernicus Marine Service 2019 MEDITERRANEAN SEA TRAINING WORKSHOP

December 9th – 10th, University of Bologna, Italy

SOCIAL EVENT December 9th, 2019

19:00 Guided Tour at MAMbo

MAMbo – Museum of Modern Art of Bologna offers a dynamic perspective: it travels through the history of Italian art from the second post-war period until today; it explores the present thanks to an exhibition centered on research and it contributes to outline the routes of contemporary art following the most innovative and pulsating experimental practices. The exhibition itinerary is currently articulated in eight different thematic areas, which document some of the most innovative aspects of the artistic practice from the second half of the twentieth century until today

followed by

21:00 Dinner at Ex Forno

The old bakery oven maintains through its name a tie to the history of the place that houses it. The rooms have been designed keeping simplicity in mind. The hope is that people will feel as comfortable as if they were in a living room. The furniture pays homage to recycling, with objects discovered almost by chance in flea markets, with the informal taste of vintage united with contemporary artistic touches and design objects. A space that aims at being a point of meeting, exchange, and getting together, where it is pleasant to spend some time at any hour of the day

For both places, address is: **Via Don Giovanni Minzoni 14**

If you wish to join the Guided Tour, please confirm your presence at the Registration Desk
