

PROCLIAS

Process-based models for climate impact
attribution across sectors

PROCLIAS TG3.2 WORKSHOP

Incorporating adaptation in labour impacts

11-12 October 2021 Ca' Foscari – Zattere
Fondamenta Zattere 1392, Dorsoduro, Venice

AGENDA

PROCLIAS

Process-based models for climate impact attribution across sectors

DAY 1: Monday, October 11th

09:30-10:00	Welcome	
10:00-10:30	Introduction and overview of TG3.2	<i>S. Dasgupta</i>
10:30-11:30	Update on review paper	<i>S. Dasgupta, S. Gosling</i>
11:30-12:30	Theoretical framework – <i>Economist's perspective</i>	<i>E. J. Z. Robinson</i>
12:30-14:15	Lunch	
14:15-15:00	Theoretical framework – <i>Econometrics</i>	<i>S. Dasgupta</i>
15:00-15:45	Theoretical framework – <i>Adaptation dynamics</i>	<i>K. Johnson</i>
15:45-16:15	Incorporating adaptation in heat-related mortality	<i>V. Huber, A. Urban</i>
16:15-16:45	Coffee	
16:45-17:30	Theoretical framework – <i>Control theory, physiology</i>	<i>F. Pau, S. Gosling</i>
19:30	Social dinner	

DAY 2: Tuesday, October 12th

09:15-09:30	Coffee	
09:30-10:30	Theoretical framework – <i>CGE modelling</i>	<i>F. Bosello, A. Orlov</i>
10:30-12:30	Towards a first draft of the review paper	<i>S. Dasgupta, E. J. Z. Robinson, S. Gosling</i>
12:30-14:30	Lunch	
14:30-15:30	Case studies on Israel and Latvia - mortality and labour	<i>S. Zemah-Shamir, E. Dace</i>
15:30-16:00	Closing and wrap-up	<i>S. Dasgupta</i>
